

## **GOD'S DIVINE NUMBERS - Divine Numbers of Heaven**

The life of every human on this planet is essentially a system controlled by numbers. If you take a minute to analyze your life, you will notice that numbers play a very significant influence in everything you do. Some major indicators are the following:

- The government identifies you by using the number on your Social Security or Social Insurance Card.
- The Credit Card Company identifies you by using your credit card number.
- The government identifies you by using your Driver's License Number.
- The government identifies you by using your Passport Number.
- Your employer identifies you by using your employee number.
- Your bank identifies you by using your account number or debit card number.
- Your vehicle is identified by using your vehicle registration or plate number.
- Your house number (mailing address) is used to identify your home.
- Your health records are stored by using an identification number.
- Your DNA is also recorded by using specific identification numbers.
- Your financial influence is also assessed by using specific numbers commonly referred to as your Credit Score. These are just a few examples of the influence of numbers in your life.

From this list, it is obvious that your life is essentially an integrated system of numbers. As much as this system continues to grow, the truth is using numbers to control the human race is not necessarily a human invention. God uses numbers to control the world because the Language of Heaven is an embodiment of supernatural divine numbers. In God's divine plan, Heaven has assigned some specific divine numbers to God and some numbers have also been assigned to Satan. Table 3A is a list of the distribution of the supernatural divine numbers of heaven. While the number (40 = 4) carries the supernatural summary weight of God's numbers, on the other hand the number (15 = 6) carries the summary weight of Satan's divine numbers. The summary weight of God's divine numbers, explains why the Bible teaches the following:

- ❖ *Jesus fasted for 40 days and 40 nights before he started his ministry. (Matthew 4:2).*
- ❖ *When God destroyed the world through Noah with flood, it rained for 40 days and 40 nights. (Genesis 7:12).*
- ❖ *When God gave the Israelites the Ten Commandments, Moses was on the mountain with God for 40 days and 40 nights. (Exodus 34:28).*

- ❖ *When Jesus rose from the dead, he appeared to his disciples over a period of 40 days and 40 nights before he ascended into heaven. (Acts 1:3).*
- ❖ *When Moses sent spies to the Promised Land, the twelve men were there for 40 days. (Numbers 13:25).*

To understand why number (40 = 4) carries the summary weight of God's divine numbers and number (15 = 6) carries the compounded weight of Satan's divine numbers we are going to visit the Chart of Heaven Values which is Table 1.

### **God's Summary Number**

If number (40 = 4) carries the summary weight of God's supernatural divine numbers, then number (40 = 4) must also carry the compounded weight of the three Godheads known as the Holy Trinity. If the divine number for each Godhead is number 7 and the number for the Holy Trinity is (777), then number (40 = 4) must carry the compounded supernatural weight of (777). From the Chart of Heaven Values in Table 1, the number (40 = 4) must therefore come from divine number 7 which is the number for each Godhead in the Holy Trinity. When we look at the Chart of Heaven Values in Table 1, from the "Total Value" column we can clearly see that number 4 came from numbers (7,16 and 25).

$$7 = 7$$

$$16 = 7$$

$$25 = 7$$

Each number 7 represents one of the three Godheads - the Father, the Son and the Holy Spirit.

### **Satan's Summary Number**

If number (15 = 6) carries the compounded weight of Satan's supernatural divine numbers, then this specific number (15 = 6) must also carry the compounded weight of Satan's principal number which is number 9 from the Tree of the Knowledge of Good and Evil. If the number (15 = 6) carries the weight of Satan's principal divine number 9, then from the Chart of Heaven Values in Table 1, the number (15 = 6) must come from divine number 9. When we look at the Chart of Heaven Values in Table 1, from the "Total Value" column we can clearly see that number 6 came from the numbers (9 and 18).

$$9 = 9$$

$$18 = 9$$
